

Lightning Wire Labs

IPFire on AWS (x86_64)

IPFire on AWS (x86_64)

Protect Your Cloud Infrastructure

Amazon is the most popular choice to host infrastructure in the cloud - and you can now use IPFire to protect it all.

Charged at an hourly rate starting from only US\$0.01/hr gives you a great opportunity to grow your business and have your cloud infrastructure grow with you.

You can try IPFire on AWS for free for a 14-day period.

Key Features

- Use the full IPFire feature set at no extra charges
- Available in all regions (GovCloud excluded)
