IPFire Open Source License

IPFire Open Source License

Help to bring IPFire to the next level

This license supports the IPFire Project. All collected funds will be directly invested into development and bringing the project forward:

- Finding and resolving bugs to improve the general code quality of IPFire
- Developing new features to make IPFire ready for the future
- Promoting the project to gain more users and contributors
- Writing documentation to make IPFire easy to understand for everyone
- Adding support for more languages to make IPFire more accessible for people all around the world
- Pay for our data center and hosting resources

The longevity and success of the IPFire Project is very dear to our hearts, but we cannot do it without you.

Subscribe today to support our efforts and see IPFire strive.

This subscription is for users of IPFire who want to give back. Running IPFire in your company but you don't need support? Subscribe! Are you installing IPFire at your customers? Tell them about giving back to the open source community and subscribe!

You can subscribe as many times as you like if you want to give back even more.
